Tendering Process Technical Advice

Copenhagen Malmö Port is soliciting tenders for technical advisory services to the developer for upcoming projects in Ydre Nordhavn - Copenhagen over the next four years (with an option for a two-year extension). This will relate to technical advice concerning the establishment of a new container terminal with associated facilities and infrastructure, the establishment of offices, administrative facilities and space for relevant governmental authorities. CMP desires to enter into two parallel framework agreements with two different advisors. CMP is expected to enter into the framework agreements in January 2021. We will publish the call for tenders via Kammeradvokaten's tender portal, Digitale Udbud/Digital Tendering System, which is automatically linked to TED: <https://ted.europa.eu/udl?uri=TED:NOTICE:440391->
