## CMP has received a distinction from the NYK Group

***Copenhagen Malmö Port, CMP, received the distinguished accolade "Certificate of zero Damages FY2016" as a confirmation of the fact that the damage rate for car handling in Malmö is essentially zero. It was announced at the NYK Group Europe Ltd RORO Division's annual quality conference in Zeebrugge earlier this week.***

"We are naturally delighted about the distinction. CMP has high ambitions when it comes to minimising the damage rates in car handling. It feels fantastic that the hard work and quality assurance we have at the terminal is also producing results. The overall damage rate for the almost 400,000 cars

that CMP handles every year amounts to 0.003%. It is also gratifying that the NYK Group has the same ambitions and values the work we do. It makes us proud”, says Povl Dolleris Røjkjær Ungar, COO, Port & Terminal Operations, Copenhagen Malmö Port AB.
