## Handling in Malmö of modules for prefab houses

Last week we welcomed the MV Costamar to CMP in Frihamnen, Malmö. Once again we managed a project, in collaboration with ShoreLink in Piteå, for the company Lindbäcks. This time there were 77 modules for prefab houses that were safely and efficiently taken care of by our dedicated and skilled employees. AtoB@C acted shipping company, and broker Hasting Schultz cleared the ship. The housing modules were then transported to a residential housing project in Malmö, Segeparksgatan.

“We are very pleased to once again have this type of ship and cargo in our

port in Malmö. This operation was successful and we consolidate our position as a flexible port that handles a wide variety of types of goods, logistics flows and vessels, and specifically this type of item that requires accuracy, special care for safety and a quality mind-set,” remarks Ann-Charlotte Halldén Åkesson, Key Account Manager at CMP.
