

COPENHAGEN MALMÖ PORT

Copenhagen Malmö Port's container terminal in Copenhagen

Jun 24, 2025 12:00 CEST

## Strong start to 2025 at Copenhagen Malmö Port's container terminal in Copenhagen

Copenhagen Malmö Port (CMP) is pleased to report a strong start to the year at its container terminal in Copenhagen. During the first five months of 2025, the terminal handled a total of over 49,100 TEU (Twenty-foot Equivalent Units), representing an increase of 12,100 TEU or 32.7% compared to the same period in 2024.

As the primary container terminal serving Eastern Denmark, CMP plays a

critical role in supporting the logistics infrastructure of the Capital Region and surrounding areas. This significant growth reflects the continued confidence and trust placed in CMP by its customers and partners.

To accommodate continued growth and enhance service capabilities, CMP is preparing to open a new container terminal later this year. This will further strengthen CMP's ability to meet the evolving logistics needs of the Øresund region.

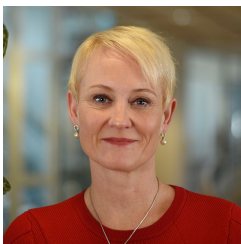

“This growth over more than 30 % is a clear signal that our customers value the reliability and sustainability of our operations. We are proud to support the region's logistics needs and look forward to continuing this positive momentum.”, says Povl Dolleris Røjkjær Ungar, Chief Commercial Officer at CMP.

CMP remains committed to delivering reliable, efficient, and sustainable logistics solutions. The current terminal is already operating without fossil fuels, and CMP is aiming to become net-zero CO<sub>2</sub> emissions in its own operations (Scope 1 and 2) by the end of 2025.
